The health and well-being of passengers and crew is our highest priority. The smaller, more intimate size of the Gemaya is on its own an assurance of a higher safety level. Due to Covid-19, we are taking additional steps and applying even more rigorous cleaning and disinfecting protocols. We are actively following all World Health Organization updates regarding Covid-19 and adjust our strategies accordingly, to ensure we meet the latest guidance of hygiene and cleaning.

These are some of the measures applied on board the Gemaya.

- Crew members are monitored daily for good health
- UV sterilization of all staterooms and public areas
- Use of approved disinfecting cleaning products effective against viruses
- Strict cleaning and disinfecting protocols are also applied “behind the scenes” in areas like the kitchen, laundry room, crew quarters
- Air management, enhanced filters and other technologies are applied where feasible to ensure fresh air circulation

See you soon onboard the Gemaya!
